

## COVID-19 Resources for Employees

---

At Barrett & Farahany we have been monitoring how the COVID-19 pandemic and sheltering in place have impacted people. There are many great resources available to employees and their families to help them through these difficult times.

Our attorneys have compiled a list of these resources that includes information about a wide array of free services. These include remote work job opportunities, financial relief information, people and pet care information, volunteer and donation opportunities, multilingual coronavirus information, and more.

We want to make all of this information available to you as you remain diligent against this virus. **Here's a quick resource** that you can use and share with coworkers and family.

Additionally, our law firm's blog stays on top of COVID-19 developments that can impact employees. **This blog is a good resource** for you to check periodically for helpful information throughout this trying time.

Our attorneys and staff continue to work remotely until COVID-19 is no longer a threat, but our dedication to our clients and to Georgia employees will not change. If you have an existing case, please rest assured that your Barrett & Farahany team is continuing to work on your behalf.

If you have a new case or questions about how the pandemic may affect your employment, our case evaluation team is here to help answer your questions at **404-487-0922**.

Our Atlanta employment lawyers believe in helping employees and protecting their rights, and we work in true partnership with our clients - our clients know they have been heard.

When you reach out to us, you will speak with an attorney, free of charge - not a paralegal or staff member. Our case evaluation team is staffed entirely by knowledgeable attorneys who can provide the assistance you need to understand your rights and know what steps to take next.

## Welcome New Attorneys

We want to introduce you to three attorneys who have recently joined the Barrett & Farahany team: Michael Wilenksy, Adian Miller and Nikki Bradley.

Michael is the Lead Litigator of the Wrongful Death/Serious Injury Litigation Team at Barrett & Farahany. He is recognized as one of Georgia's premier wrongful death and serious injury attorneys. An equally significant portion of Michael's practice is dedicated to employment litigation matters, including claims of sexual harassment, violations of the Family and Medical Leave Act (FMLA), and gender, pregnancy, race, religion, age, and disability discrimination.

Adian's practice is focused on fighting for employees who have been denied their hard-earned wages or had their rights violated under federal law. She strongly believes in the dignity of labor and believes the workplace should be safe and free of fear, intimidation, threats or discrimination.

Nikki Bradley is an associate who is motivated by helping people in ways that bring positive changes to their lives. Nikki focuses on litigation brought under federal and state employment laws. Nikki strives to help her clients maneuver through all the intricacies of these complex laws.
